

Wellington Literacy Association offers

a workshop with

Dr David Moreau

David from the Centre for Brain Research in Auckland is coming to the Wellington Literacy Association on Thursday **18th May**.

He will discuss current research and knowledge about training the brain, as well as how this line of work can inform best practices when children face learning differences.

He will introduce the **MovinCog Initiative**, which is a nationwide programme intended to offer children the tools to thrive in schools.

He will also share some practical situations for our classrooms.

David's presentation will build on the foundations of what we heard from Nathan Mikaere Wallis of the Brain Wave Trust, at previous WLA workshops.

Date: 18th May 2017 (Thursday)

Venue: To be confirmed on registration

Cost: \$35.00 per WLA member
\$60.00 non-members

Start time: 4.15pm – 6.15pm

To enrol, please email your name, school and number of teachers attending to

Melinda : wgtnlitassoc@gmail.com

An invoice will be emailed to you.
